La collection scientifique *ricerche | architettura, pianificazione, paesaggio, design* englobe la série **Études Euro-Méditerranéenne**

La série de publications scientifiques *Études Euro-Méditerranéennes* a le but de diffuser à l'échelle internationale les études et les recherches résultant de la coopération scientifique et culturelle entre le Maroc et l'Italie dans le cadre de la Déclaration conjointe du 6 Juillet 2016.

Chaque volume est soumis à une procédure d'acceptation et d'évaluation qualitative fondée sur l'examen par les pairs et confiée au Comité scientifique de Firenze University Press (FUP).

Toutes les publications, en anglais, français ou italien sont en libre accès sur le Web pour promouvoir non seulement leur diffusion mais aussi une évaluation ouverte à l'ensemble de la communauté scientifique internationale.

Le Département d'Architecture de l'Université de Florence promeut et soutient cette série pour apporter une contribution visant une meilleure connaissance théorico-critique et opérationnelle autour des thèmes de l'architecture et du projet qui nécessite continuellement la comparaison avec les différentes réalités qui peuvent ainsi croiser leurs connaissances.

Les essais naissent d'une réflexion sur le patrimoine méditerranéen et proposent des idées de recherche sur des études de cas particulières par le biais d'un apport conscient des différentes disciplines architectoniques. La dimension matérielle et technique est exprimée à travers une mise en relation entre des domaines de connaissance strictement interconnectés, ce qui permet de partager non seulement des méthodes et des approches conceptuelles, mais aussi des outils d'investigation et de représentation. Les publications ont pour objectif d'étudier le sens et la signification, la continuité et la diversité culturelle de l'espace dans le bassin méditerranéen.
